

Mission

ENEIDA.IO's mission is to ensure the development of solutions for the monitorization of the network assets and electronic equipment's condition that satisfy the necessities of its customers and simultaneously enhance the professional valorization of its Collaborators.

Integrated Management Policy

ENEIDA.IO intends to:

- Be, in every moment of its existence, a competitive organization, focused on the excellence of its performance and on the fulfilment of its applicable compliance obligations, reputable for its quality, responsibility and integrity in the commitments assumed with its Customers, Collaborators, Partners and Society;
- Contribute to the sustainable development, by protecting the environment and preventing pollution;
- Foster the quality of life and preserve the integrity of the collaborators and of all persons that might be affected by our activities, and therefore on the scope of the Occupational Health and Safety management, the company assumes the commitments of eliminating dangers, reducing risks, and promoting the consultation and participation of the collaborators and their representatives.
- Continuously improve the efficiency and performance of the integrated management system, in its aspects related to the quality, environment, health and safety, information security, IT service and corporate social responsibility.
- Ensure the evaluation of its performance, by confronting the achieved results with the Directives and Norms currently recognized in the Market.
